Malden High School Vision Statement

The Malden High School community believes in the potential of all students to learn, to grow, and to become active, conscientious participants in the 21st century global society. We believe that students learn most effectively in a safe, respectful environment that encourages diverse viewpoints, promotes critical thinking and perseverance, and establishes rigorous standards for all. We honor the diverse nature of our community, promote social awareness and community involvement, and strive to meet the needs of all students through innovative methods and continual professional development. We are committed to ensuring that Malden High School graduates are thoughtful, independent, purpose-driven, lifelong learners. We seek to equip all students with the skills and habits necessary to successfully navigate and contribute to our ever-changing world.

Good morning,

What is only high school mentioned in the Boston Globe Sunday Magazine twice in the past month?

Answer; Malden High School

A couple of weeks ago in an article about community college and high school partnerships the Bunker Hill Community College-Malden High School partnership was referenced as a model.

Yesterday, in the special section announcing the opening of the Edward Kennedy Institute the article referenced Greg Hurley and our students.

As an aside our students also were featured in the promotional video that the Institute did and we were on Channel 5 last night.

Congratulations to the students and staff involved in some great co-curricular programs over the weekend. The weekend started Friday afternoon with the first ever varsity boys volleyball match in Malden High School History. Malden competed valiantly against Lowell High School before losing the match. Great effort Coaches Sadowski, Brown and boys!

Two busloads of students attended the AP Science Prep Sessions in Melrose on Saturday. Staff members Maglio, Berryman, and Votaw led the way.

On Saturday I had the pleasure of watching our Concert Choir and Madrigals achieve a Silver Rating at their performances, the best in recent memory. Next up our concert band did not disappoint with their spirited performance. Finally, our robotics team acquitted itself quite well at the Annual Botball Competition at UMass Lowell. Todd Cole, Erin O'Brien-Mazza, Brian Morrison, and Chris Bazzinotti deserve a special "shout out" for their efforts. I would also like to thank the students and parents for their continued work and support.

What a whirlwind couple of weeks it has been for all of us; it doesn't change much over the next few weeks. However, the MCAS over the next three days does give us opportunities where there may not have been many before; we always look at the positive and get the small victories whenever we can.

- We'll distribute Chromebooks to all 9th graders.**
- We'll provide free CPR training to all members of the junior class.**
- We'll be able to offer in-house practice AP exams in some sciences and some social sciences.**
- We'll provide a financial aid seminar through MEFA to our seniors.**
- There are a couple of neat and interesting field trips happening this week.**

A special shout out to Sean Walsh, Natalia Brennan, Mike Schiavo and all the members of our Chromebook-Google tech team who have done a tremendous amount of work in getting us to this point.

Thank you and have a great week.
