Malden High School Vision Statement

The Malden High School community believes in the potential of all students to learn, to grow, and to become active, conscientious participants in the 21st century global society. We believe that students learn most effectively in a safe, respectful environment that encourages diverse viewpoints, promotes critical thinking and perseverance, and establishes rigorous standards for all. We honor the diverse nature of our community, promote social awareness and community involvement, and strive to meet the needs of all students through innovative methods and continual professional development. We are committed to ensuring that Malden High School graduates are thoughtful, independent, purpose-driven, lifelong learners. We seek to equip all students with the skills and habits necessary to successfully navigate and contribute to our ever-changing world.

Good morning,

Wow! Let's take a collective breath. I have spoken to a few of you who are already feeling slammed by the work, the pace etc. We transfer this feeling to students. Check yourself.

That's all I have today.

Actually, one more thing:

Principal: Hey, how are you?

Student: Ok, How are you?

Principal: Never been better, living the dream!

Student: Ugh, all of my teachers are saying that too.

ps

Keep up the good work and words!
