

### Program Schedule and Location

We designed this program which is being offered within the inner-city, accessible to public transportation, and at a time of the day to make it easy and convenient for local youth to enroll.

- Classes are held in Malden MA;
- Program are offered at walking distance from the Orange Line and from local bus lines;
- The program runs for a period of four to six months, during which companies will be recruiting new employees among program participants;
- Classes are held in the late-afternoon/evening hours; twice a week on Tuesdays and on Thursdays;

## Why this Program

The construction industry has recently witnessed an explosion of cutting-edge technologies developed by a new breed of dynamic, young entrepreneurs. This rapidly-evolving and technology-based industry drives the economy and allows other industries to flourish. Young people everywhere are increasingly becoming aware of the prospects of the industry and want to take part of the revolutionary building techniques which help make possible world-class hospitals, laboratories, schools, and research facilities. This program provides the preparation to local youth and young adults with a strong desire to pursue rewarding, long-term careers in the construction industry.

**Join the Construction Industry: Be Among Those Who Build the Future!**

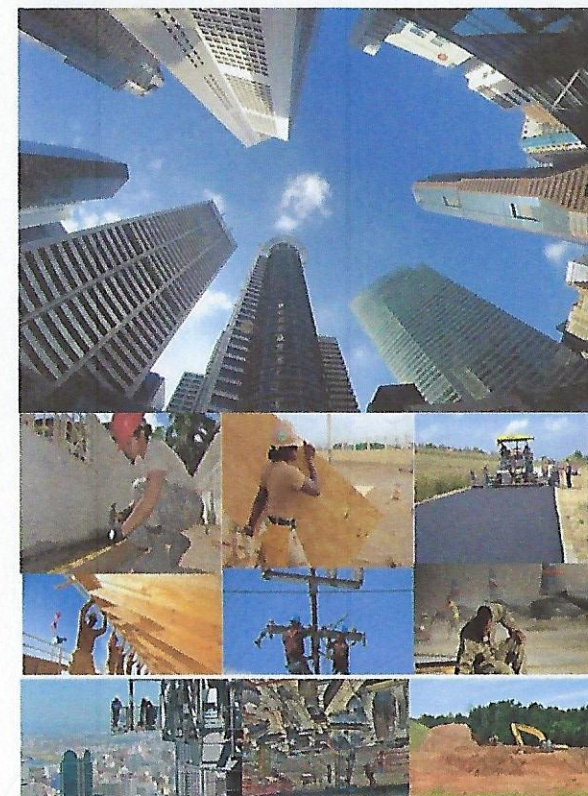

**Send us your resume if you are interested**

**Only those who are committed to a career in the construction industry are encouraged to apply in order to enroll in the program.**

## Building Mass Careers Pre-Apprenticeship & Leadership Program

*Training the next generation of professionals for an increasingly technology-based construction industry*

## The Program Appeal

### Top Five Reasons to Enroll...

- Train for a rewarding, long-term, middle-class career — not just a job;
- Program designed to turn local youth into skilled professionals to meet the demand of the 21<sup>st</sup> Century construction marketplace;
- Direct and immediate employment and career opportunities;
- Work for some of the best innovative companies in the industry;
- The trade-related annual tuition is only one-fifths (1/5) of that of a college tuition; it's very often paid for by the employers.

### Think a career prospect that looks this great has to be difficult to achieve?

It's easy to tap into the construction industry's great career opportunities: we are not looking for talents; all you need is a career vision and your determination to achieving it....

---

*"The 21<sup>st</sup> Century construction professional's wages are currently the equivalent to that of a professional with a master's degree."*

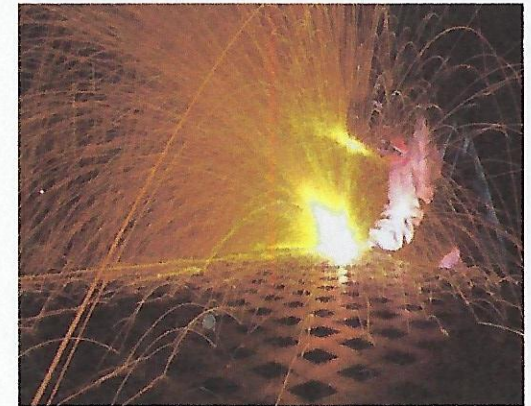

---

### HERE is how it works when you become an apprenticeship ...

DAY ONE: YOU become an apprentice: this is full-time employment with full benefits — no student loan and no massive college debt;

MONTH #6: YOUR wages increase substantially for every 1,000 work hours and for every 150 school hours you complete as pre-determined by the state;

YOUR JOURNEYMANSHIP: It may take 2 to 5 years to become a licensed professional or a journeyman depending of your trade. Once you reach this milestone, YOU are guaranteed the top wages.

## About this Program

Building Mass Careers Pre-apprenticeship & Leadership is a six month, cost-free training program which includes the following components:

- OSHA/Safety Certification
- Hoisting License Prep
- Youth Empowerment, Work Ethics and Leadership
- General Construction
- Job Shadowing
- Apprenticeship and Job Placement with ABC Employers

## Eligibility Requirements

1. High School Diploma, GED, or Current High School Seniors
2. Eligibility to Work in the U.S.

A valid Driver's License and reliable transportation are necessary for the job placement phase of the program

## **Pre-Apprenticeship Program Leadership Academy at Malden High School**

Malden Superintendent of Schools John Oteri is pleased to report that Malden High School has signed an agreement with Associated Builders and Contractors, Inc., Merit Apprenticeship Program, to offer pre-apprentice and leadership training. Training will include 75 hours of general construction, OSHA 10, and hoisting training, followed by placement. Classes will be held later this month in the Maker Space at Malden High School in the late afternoon and evening hours on Tuesdays and Thursdays. An additional class will be held on Wednesday evenings for Malden High School Seniors beginning in June where youth will receive training in OSHA- 10 and Construction Math, with the opportunity to move into the full pre-apprentice program. To apply for the full Tuesday and Thursday program, please immediately contact Morisset St. Preux of ABC, Inc. at 781-273-0123 or email [mpreux@abcma.org](mailto:mpreux@abcma.org). For information in enrolling in the Wednesday Evening Program, please contact Kelli Collomb, Malden High School, at 781-397-6046 or [kcollomb@maldenps.org](mailto:kcollomb@maldenps.org).
