October 2021

Beebe, Forestdale, Linden & Salemwood Schools

Forestdale

Afterschool was bursting with fun this October! Each week we took on a new topic to investigate and October's themes included outer space, the ocean, fairytales and the fall season. Students engaged in daily hands-on age-appropriate lessons where they used their imaginations to design their own planets or fairytales, became chefs to make fairy bread and edible oceans, and became artists to paint their own pumpkins, create a solar system, and make their own jellyfish!

Painting Pumpkins!

Salemwood

We were fortunate enough to have retired Malden fireman Mr. McGonagle (father of Assistant Principal Ms. McGonagle) visit our program to teach us about the significance of fire safety and essentials such as stop, drop, and roll, as well as having working fire detectors in our homes. We jumped right into some fall activities after feeling safe and informed thanks to Mr. McGonagle's information. We took part in a range of activities and learned about well-known artists such as Andy Warhol, Wassily Kandinsky and Van Gogh. Our virtual field trip to the pumpkin patch was the best part of October!

More Salemwood Student Art Work!!

Chinese Culture Connection

In October, we continued to focus on vocabulary building for the Chinese class when addressing family members, such as mother, father, (older, younger) siblings. For the Creative drawing and the Arts, and crafts, all children enjoyed creating Festive Fall-inspired themes. Everyone had a great time making decorative face masks. For science this month, our experiments focused on the relationship between density and floatation.

Slavic folklore huts with chicken legs

Salemwood students and staff outside for their pumpkin volcano science experiment!

Beebe

Beebe's busy business butterflies! This month at Beebe, students learned about entrepreneurship. All of our young people are in the early stages of creating their very own business. They designed flyers, business cards, products, and services. You name it; they got it!

In addition to working passionately on their business, we celebrated Fall with some fun pumpkin painting and arctic dioramas after watching March of Penguins.

Mini Pumpkin Painting!

Linden STEAM Academy

October was a spooky but fun month for the Linden MOST program! We read Slavic folklore and made huts that stand on chicken legs. We tried new games like Sidewalk Pictionary, Bingo, and Best in Show, which is a game where students draw blindfolded. We even made spooky monster puppets. This all culminated into a Fall Fest Extravaganza and we had a blast!

Best in Show!
