

Notes from 5/25/22 Beebe School Site Council Meeting

- End of Year Data Update
 - We are wrapping up our benchmark testing and MCAS is closed
 - Data shows what we expected that while progress was made our students are not where they need to be.
 - Many factors, mainly the loss of in-person school time during COVID really set children back socially, and emotionally which is having a large impact on academic performance.
- Review School Site Council 2021-22 Successes, Challenges
 - We were able to make progress on the food services issue. We are looking forward to the new company coming in. The second lunchroom site will help the crowding.
 - This year's dialog was richer and more candid than in previous years.
- Plan for Summer Meeting with PTO and Looking Ahead to 2022-23
 - Agenda and invitation will be sent out to PTO to discuss fundraising, parent engagement
 - SSC will also brainstorm some smaller goals we wish to aim for next year such as response for tragic, national or international events
